Asking Good Questions

After reviewing the data

- What strengths did you identify and how can we build on those?
- What challenges did you identify and how can we leverage our strengths to address these?
- How does our enrollment and student success compare to our competitors and best performers?
- Are our diverse student populations succeeding at the same rate and if not, why not?
- What professional development might empower faculty and staff?
- Do you need additional faculty/staff and how does the data show that?
- What improvement plans do you propose?

Richland College Dream Success Team

Faculty

- Examine data and discuss student success in each gatekeeper course
- Share student success initiatives across disciplines
- Document improvement plans aligned to Richland's measurement system and strategic plan
- Evaluate student outcomes resulting from improvement plans
