What is a Theory of Change?

A photograph of two women standing outdoors on a paved walkway next to a brick building. The woman on the left is wearing a black t-shirt, black shorts, and a yellow backpack. She is looking down at a document held by the woman on the right. The woman on the right is wearing a purple t-shirt and blue jeans. She is pointing at the document. The background shows a brick wall and some greenery.

“A theory of change explains how a group of early and intermediate accomplishments sets the stage for producing long-range results.”

Anderson, A. (2009). The Community Builder's Approach to Theory of Change.
The Aspen Institute Community College Roundtable.

Project Superwoman

Key elements of a Theory of Change

- Focus on systemic change
- Stakeholder engagement
- Data-driven approach
- Must address root causes
- Must incorporate continuous adaptation

Change**

ASHLEY

ACC Student

Age: 26 - Woman of Color

ENROLLMENT INTENSITY

Part-time

- 2-3 classes/term
- One distance education

WORK STATUS

Working 11-34 hours/week

CAREGIVING STATUS

At least 10 hours/week caring for family members

WISHES

- Complete her award and start a career that pays a family-sustaining wage
- Make meaningful connections with instructors and peers

WORRIES

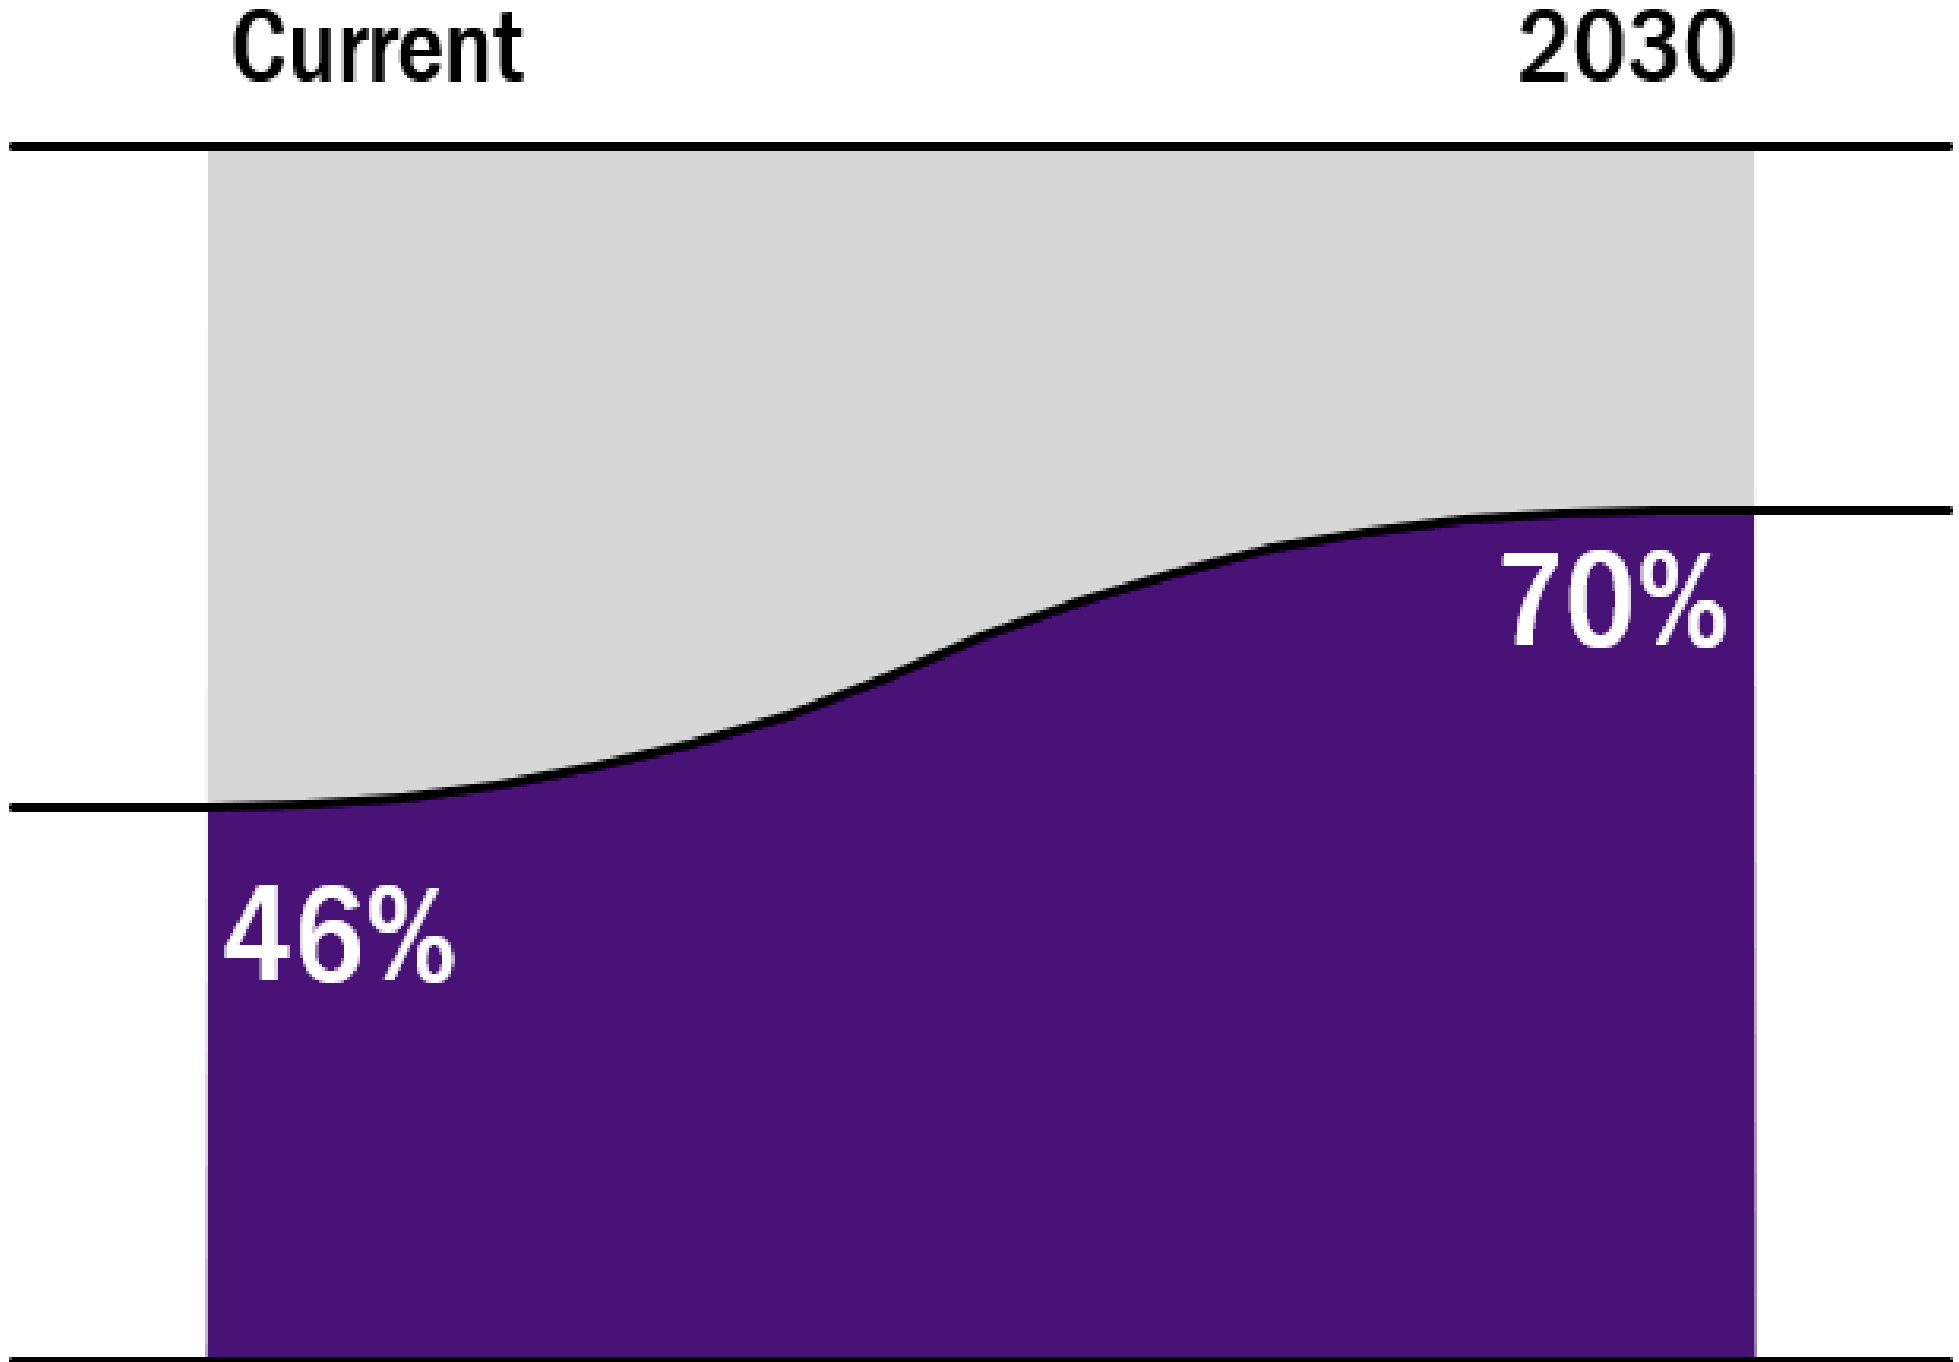

- Managing high levels of stress & anxiety
- Hasn't found "her people," which stokes isolation
- Courses won't have available seats at times she can attend
- Will not have enough money to pay for school

ACC's Theory of Change

When students...

ACC's North Star is to dramatically improve completion from 46% to 70% by 2030.

How OIRA is Supporting the Theory
of Change

Collegewide Support

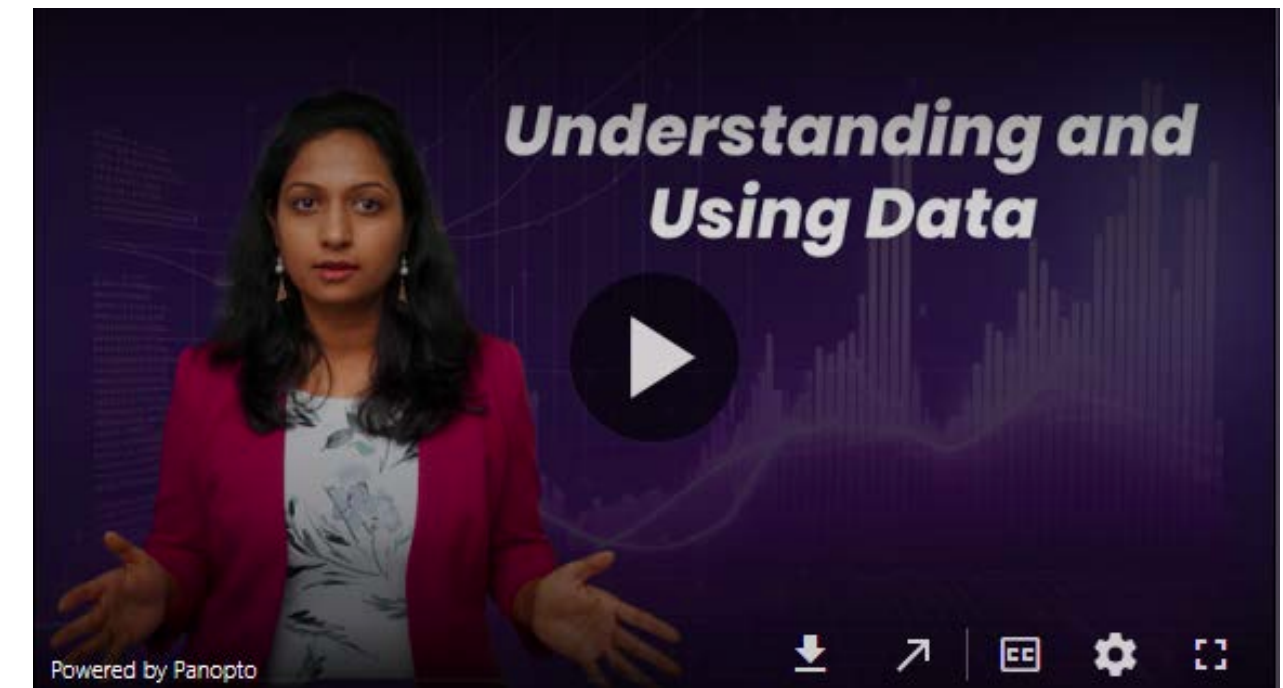

The Data Summit

- ACC campuses closed for the day on March 27, 2024
- All full-time staff and faculty are required to attend
- Chancellor launched the Theory of Change collegewide
- Vice Chancellor of Institutional Research and Analytics introduces the data that motivated the pillars and the North Star

Preparing for the Summit

5 - Start Strong
May 10, 2024

After the Summit - Data Deep Dives

804 ACC faculty and staff joined at least one live Data Deep Dive session, with **38% attending three or more sessions**. In addition to the live events, the **session materials were also viewed and downloaded 960 times**.

After the Summit - Summer Data Refresher Series

A five-day outreach effort providing opportunities to explore and enhance understanding of the data behind ACC's Theory of Change.

How to Engage with Data for a Chance to Win

Join the poolside chat!

We've created a Padlet where you can share your insights from digging into the data. Anyone who participates in the Padlet and leaves their email address on their post gets one entry into the raffle. Share your thoughts, experiences, or what you learned from the Data Deep Dives!

Take the quizzes!

Each daily email will link to a quiz question related to the featured content. You will get one entry into the raffle if you answer the question correctly.

That's up to six entries for a chance to win one of the Totes Data Informed swag bags!

After the Summit - Summer Data Refresher Series

Summer Data Refresher Series (Day 2 of 5) – Start Strong

→ Dr. Jenna Cullinane Hege ACC jenna.cullinanehege@austincc.edu via regroupcloud.co... Jul 23, 2024, 8:04 AM
to me

Good morning, colleagues,

Today's data refresher is the first pillar of the Theory of Change - **Start Strong**.

What does it mean to Start Strong?

Students who start strong are equipped with a clear plan, are provided intensive proactive support, and are enabled to begin making academic progress quickly.

Key takeaways shared during the Data Deep Dive session include:

- ACC loses 44% of first-time-in-college students between the first and second fall semester. Helping more students to **start strong** is intended to reduce the number of students who stop out.
- Practices such as meeting with an advisor and completing an ACC success course with a passing grade are associated with increased persistence.
- Research has found that while the traditional developmental education model is not optimal for student success, co-requisite courses offer an evidence-based alternative where students are enrolled in college-level, credit-bearing courses and receive additional aligned academic support during the semester.
- Dual credit plays an important role in accelerating students to complete. For the fall 20 FTIC cohort, students with dual credit had a higher North Star Completion Rate than those without, 60% compared to 42%.
- Students from ACC's service area who enroll directly after completing their high school degree have higher persistence rates after one year than students who do not enroll directly after high school. However, only 10% of service area students who graduated high school in AY2022 enrolled at ACC.

How to Engage with Data for a Chance to Win a Fun-Filled Summer Tote

Take [today's quiz](#) - a correct answer will get you an entry into the raffle.

What percentage of students from ACC service area schools did not directly enroll in any institution of higher education after graduating high school in 2022?

- 25%
- 43%
- 55%
- 72%

Join the poolside chat!

We've created a [Padlet](#) where you can share insights from digging into the data. Anyone who participates in the Padlet and includes their ACC email address on their post gets one entry into the raffle. Share your thoughts, experiences, or what you learned from the Data Deep Dives!

Where to Access Resources

Take the plunge! You can find recordings of all the Data Deep Dive sessions and answers to Frequently Asked Questions (FAQs) on the [OIRA Data Deep Dive webpage](#).

	PHASE 3				

Lessons Learned (So Far)

Invest in analytical & data literacy capacity

Engage everyone in the process

Surround the team chairs with support

Prioritize this and pause other innovations

Dr. Russell Lowery-Hart, ACC to Everyone 10:23 AM

DR

Yall! The case making, with data, is so clear. We can all understand the challenges students (and employees) are facing. THANK YOU! this is fantastic.
